Why

New Hope White Lake is a new community that will offer a wholesome living alternative for elders who need care, or independence with minimal care.

New Hope's 21-acre Senior Living Campus is the finest, dedicated, purposefully designed enhanced independent living, assisted living, and memory care campus in White Lake.

New Hope embraces the resident-centered care model, focused on the physical, spiritual, social, emotional and intellectual wellbeing of our residents. Our mission is to create a stimulating yet safe and comfortable environment for all in our home.

Thriving Communities

New Hope White Lake offers a unique choice of communities:

Enhanced Independent Living

New Hope White Lake's signature enhanced independent living offering provides residents with the opportunity to "age in place," adding services as needed.

Assisted Living

New Hope White Lake offers an enriching environment for our assisted living community in addition to spacious, well-appointed apartments, featuring our all-inclusive approach.

Memory Care

We offer a special memory care community for those who have developed cognitive issues related to dementia or Alzheimer's. These residents need services in addition to those available in our assisted living community, but with the same homelike environment.

Enhanced Memory Care

We understand how disruptive a move can be for a loved one challenged with dementia or Alzheimer's. That's why we offer an enhanced level of care for those in later stages of dementia. It's important to keep loved ones in familiar surroundings with staff who already know them. Continuity of care is our goal.

A Higher Standard

Your golden years should be worry free, and at New Hope we want our residents to live a life of comfort and relaxation. From our spacious rooms to our amenities including:

Beauty Salon & Spa	Movie Theater	Zen Garden
Chapel	Regular Entertainment	Outings and Excursions
Fitness Classes	Library	Holiday Celebrations

You'll find our commitment to quality living is unrivaled.

Fine Dining

Freshly prepared meals and customized nutrition plans – cuisine at New Hope White Lake offers it all! The menu varies day to day, though certain staple foods are always available.

All-Inclusive Pricing

All-inclusive pricing means that your finances are simplified: all personal services are included in the cost of the floor plan you select: housekeeping and laundry services, and medication management as well as utilities and cable & internet.

Floor plans

Our apartments are well-appointed and are amongst the most generously sized in the senior living arena, offering ample storage space. Selected apartments feature walk out patios that access courtyards.

Ontario • 470 square foot

The Ontario has a distinctive open floor plan that is cozy, self-contained, and effective. It features a large, beautiful bathroom and a kitchenette with high grade granite countertop. The Ontario is brightened by two bay windows providing great views and sunlight.

Available for memory care residents only.

Erie • 500 square foot

The Erie is our most modest layout available, and suitable for anyone looking for a cozy and enjoyable place to call home. The Erie provides enough room for the resident to feel comfortable, providing quick access between each room.

Michigan 600 square foot

The Michigan is a very popular layout. It is suitable for anyone looking for a spacious one bedroom apartment. The Michigan provides more room for the residents to walk about and make it their home.

Michigan+ 630 square foot

The Michigan Plus layout is slightly larger than the Michigan apartment. It is very popular with couples and is also suitable for anyone looking for a more spacious floor plan than the Erie and Michigan.

Huron • 720 square foot

The Huron, with its spacious layout, is our largest one bedroom offered to our residents. It is coupled with 1 1/2 bathrooms.

Superior • 947 square foot

The Superior is New Hope White Lake's largest apartment. With two bedrooms and two bathrooms, its footprint provides a generous amount of space for our residents.
